

Verasonics Inc. Launches Scientific Ultrasound Articles Database Platform with Easy-to-Use Search Features

Over 2000 Supportive Scientific Articles Referencing Verasonics Products Now Conveniently Located at Verasonics.com

Verasonics is committed to delivering premier research ultrasound technology with its leading-edge Vantage™ Ultrasound Research System exclusively designed for academic and commercial investigators. These real-time, software-based, programmable systems accelerate research and development for various ultrasonic and acoustic projects by providing unsurpassed speed and flexibility to simplify data collection and analysis. Vantage Research Ultrasound Systems are now used by scientists and engineers in 34 countries across North and South America, Europe and the Middle East, Asia, Australia, and New Zealand. The Vantage technology has been referenced in over 2000 scientific publications describing advancements in ultrasonics.

At Verasonics, our goal is to continually provide the best products and the highest levels of support to customers. We are pleased to introduce this scientific article database platform to serve as an easy-to-use reference tool in your research and development projects. This database of publications that reference Verasonics includes search parameters and instructions and can be found on the Verasonics website [here](#). You will see that topics within this database are quite extensive and represent continual progress, novel techniques and notable breakthroughs that have been made with our customer's research efforts. Our goal is to update this database several times a year so that you have access to contemporary research done with Vantage systems.

We hope that this database provides value, and we welcome any feedback you may have as you use the platform. As a company founded with the objective to help scientists and engineers create new ways of using ultrasound, we want to say thank you to our customers for helping to make the Vantage Research Ultrasound platform the leading research ultrasound product in the world.

Please join us for our next Vantage customer training via live webinar, 8-11 February, 2021, 9 – 11 am PT. Contact sarashager@verasonics.com to register or click [here](#) for more information.
